WE PUBLISH FOR MR. WILLIAMS.

Mr. David Will'ams seems to have some doubt whether his etter would be published mistaken; for we intend to set it up as a glass ord with his partisan feelings-that is, well enough, were it not for the hypocrity of assumed impartiality with which he tries to conceal an intense I arrised bigotry. We distinctly temember getting the letter some time ige to which he refers. Of course we did not and corruption against General Garneld. Some things are too absurd, or, too evidently prompted by a mere spirit of malignity, is receive or deserve other treatment than contisan malignants who are desperately deter-mined to believe them. The voice of the peapleshows that they have in them a sense of justice which revolts at infamous and persistent standers. Of course men like Mr. David Williams, of Canby, are proof against any sentiment of this kind, but men like him are few. We do not know him personally, further than his character is reflected letters are a revelation of a whole character and it is sufficiently apparent from his Pnari-saical tone that his neighbors would do well to watch him. If he is getting Tak Oregonian he may be sure the paper will top when his

subscription expires, as we should by no means be willing to trust him. He claims to be too "good" a men.
Finally, it may be said that no charges of bridery and corruption have been preferred against General Garneld by the republican party. We know of no one, u dees it be Mr. David Williams, who could be so irrectains. ble a fool as to suppose that any party would prefer charges of pribery and corruption against a man and then nomina e him for the

Southern papers comment with bitterness they will not allow us," warmly exclaims the Richmond Papatch, to be their equals outside the union nor within the union. We distinguished New Yorker, and he was not party which permitted to take his seat. In 1880 we propose to elect the most accomplished officerum country has fail the federal army, and the people of the morth mies. More in sorrow than in anger do we

now. In former times, when this arrogance telligence an citizenship. Under this view was disputed, there was a course of swagger, success of such an east would seem to be bluster and finally rebellion. Up to these repent one of the least possible of impossible things, elections, there was much of this paid hamphy. insolence. But now it is found that buildo zing has come to naught and a solid south is useless; and a dismal whine, in which nevortheless the old character manifests itself. takes the place of the ancient threat to dis solve the union. "We" are injured because we" are not allowed to elect the president and control the government. It was not be cause the people of the north regarded the people of the south as "enemies" that the former defeated Mr. Greeley in 1972. Northarn people have profound reverence for the semory of Mr. Greeley. But they knew well his peculiarities and eccentricisies. And their vote was simply a declaration of "want of confidence" in him for the duties of the presidency. Great as Mr. Greeley was, he was to be lacking in the qualities which give steadiness to states manship; and from this fact, and from consideration of the character of the men behind him, he was defeated. Nor in 1876 was it "enemies" of the south that the northern people voted for Mr. Hayes. It was done in pursuance of a plan of conciliation and harmony, which, on their side, has been fully carried out,—hough the riotenes of the mission of news. If, in pursuance and the solid south, through which the rights-of clitons have been suppressed, shows in what spirit it has been met. For jouthern particularly the solid suppressed allows in what spirit it has been met. For jouthern particularly in the solid suppressed allows in what spirit it has been met. For jouthern particularly in the solid suppressed allows in what spirit it has been met. For jouthern particularly in the solid suppressed allows in what spirit it has been met. For jouthern particularly in the solid suppressed allows in what spirit is the solid suppressed allows in what spirit is the solid suppressed allows in what suppressed allows in white suppressed allows in what suppressed allows in what suppressed allows in what suppressed allows in white suppressed allows in what suppressed allows in white suppressed allows in white suppressed allows and harmony, which, on their side, has been spirit it has been met. For southern popers to call him "an enemy who took away the troops from their capitals and remitted their people to complete self-government which, nowever, they have so grossly abused is nothing less than the injustice of rank in-Concerning "the distinguished New Yorker" who is claimed to have been elected," the less said the better. The south had; notoriously cheated the republicans of that section out of their votes, and subse-quent developments in regard to the great nipherer soon made every honest man glad that he had not secured the prize of a grea hatred of south, but the business argument, n which there is an element of distrust not only of the south but of the democratic party generally, that gives the republicans their great and unexpected strength. The elections thus far held signify that it is the business men's verdict that the republican party should remain in power. This promises to be still more the feature of the general verdiet, soon to be recorded.

The great trouble is that the southern per ple pursue a course which makes them regard hemselves as the hated "enemico" of the orth. 'They set up "the south's as the coun trolling power. The only thing that the north intends and insists upon in regard to the south now, is that the constitutional nendments and election laws shall be enerced, and that every citizen shall freely yote. Is not the north entirely right in that? Would the country be doing its whole duty if it allowed one class of its citizens in the south, on whatever plen, to keep another class out of their equal rights? But because we insist on this, we are by no means the "enemies" of the southern people, or any class of them. This purpose to enforce equal ment of ideas as in the truck of arms.

THE LOWES DESP. W. One Kennard Philip has been arrested in This stapid and clumsy piece of villainy is New York for forgery of the "Morey" letter, now made by the democratic party, from As the forgery is now so clearly established chairman Barniam down to the Oregon is seems a trivial matter to be followed up, measuring worm, the last "great issue" of but perhaps it is as well to exhaust the law oursuing the authors of this lest cont ible expedient of political villainy, as a deterrent against future attempts. It may be that this Philp or some other scoundrel, has produced a piece of writing which on slight examination would been for a sort of colorable mitation of General Garfield's chirography, though all reputable democratio newspaper of New York avoid committing themselves to it. The forgery and its publication are the work of the lowest class of partisan journals and politicians. As a matter of fact if it were genuine, somebody who knew Morey would have been produced long ago, as the forgery has now been running for a full week. But even this method of supporting the case, which would be the most easy and natural that could be suggested, has not been at-tempted. The New York Evening Past, known as one of the most careful, conscienletter can hardly be worth serious discussion of which it can be said, first that Garfield never wrote it, second that there was no Morey to write it to, and third, that in any event the contents are of no practical import Again, after saying that it does "not doubt that the letter has been fabricated to polster so far as it may a forlore hope," the Evening Pest adds: "To resort to a device of this sort at such a time is so manifest a confession of weakness that the more sagacious among the democratic party must writhe over the injury inflicted on their cause by too zealous and too unscrupulous underlings. It is not by puny weapons like this that the tide of battle is reversed in critical moments and impending defeat turned into victory.

The mission of the democratic party throughout the carvass, which has been that of mag-nifying triffer, and thus constantly suggest-ing by implication the weakness and deficiences of their cause attends them to the

There is not on the democratic sit a one single appeal to any honheen concentrated upon a stupid forgery, exan appeal to ignorance and prejudice, with which it seem to be supposed, and perhaps pretends to deem itself lit to contend for the helm of the country has fallen. All real quastions before the country, finance, tariff, revenue, currency, rights of citizenship, support of the

constitutional dmendments and enforcement of the laws, are dodged and avaded, that a for the most a sungogical and disgusting pur

One of its most prominent articles, double leaded, says; "Voters look out for T IR CARGONIAN, It will be filled from new unt I after election day with lies manufactured by a partisan absociated press to subserve Garneld. Believe nothing it says. Place no fath in The Caroorian phase dis-patches." Now this adjuration to look out for THE OBECOMEN is entirely unnecessary. People will look out for it without being exprinted and circulated so many copies in any previous sampaign by many thousands as now. All espans of all parties who want news look to lik Orgonian for it. They be said to the contrary by stupid opponents, the general public know well that in all important matters its news is a ways full and always trustworthy. The associated press is days ago in Ir dima and Ohio, it was because those viotories actually occurred; and if now Garfield, it i. libewiee because the drift is manifestly the: way.
